Comparison: Lighting & Camera Coverage

eufy Floodlight Cam 2 Pro (S330 / T8423) compared with Ring's Floodlight Cam Plus and Floodlight Cam 2K.

Feature	eufy Floodlight Cam 2 Pro	Ring Floodlight Cam Plus	Ring Floodlight Cam 2K
LED lights	**3 adjustable LED panels**	2 LED floodlights	2 LED floodlights
Total light output	**3,000 lumens**	2,000 lumens	2,000 lumens
Light color	**Adjustable 3000-5700K** Warm to cool white	3000K warm white	3000K warm white
Camera movement	**Motorized pan and tilt** 360° horizontal rotation	Manually aimed; fixed viewing direction after setup	Manually aimed; fixed viewing direction after setup
Automatic following	**Physically turns to track a person**	No motorized following	No motorized following
Video resolution	**2K**	1080p HD	2K
Change direction from phone	**Yes** - pan and tilt controls	No motorized aiming	No motorized aiming

More light: eufy's 3,000-lumen rating is 50% higher than the 2,000-lumen rating of either Ring model. These are integrated LED panels/lights, not a count of replaceable bulbs.

What 360° means: eufy can rotate the camera to view different directions; it does not record all directions at once. Ring watches a fixed wide view of approximately 140° horizontally. Installation and obstructions affect usable coverage.

Comparison: Recording & Everyday Use

The biggest ongoing-cost difference is how recordings are saved and reviewed.

Feature	eufy Floodlight Cam 2 Pro	Ring Floodlight Cam Plus	Ring Floodlight Cam 2K
Record without a subscription	**Yes** - motion clips saved locally	Subscription required for standard saved recordings and playback	Subscription required for standard saved recordings and playback
Storage	**Built-in 8GB local storage** Older clips overwritten when full	Cloud storage with eligible subscription	Cloud storage with eligible subscription
Continuous 24/7 recording	No - motion-triggered clips	Available with eligible subscription and recording add-on	Available with eligible subscription and recording add-on
Live view / two-way talk	Yes	Yes	Yes
Motion alerts / activity zones	Yes	Yes	Yes
Voice assistants	**Alexa and Google Assistant**	Alexa	Alexa

Storage tradeoff: Ring recordings already uploaded to the cloud remain off the camera if the camera is stolen. With eufy's built-in storage, download or back up important footage. Ring basic live viewing, two-way talk and motion alerts work without a subscription; saved-video review requires an eligible plan.

Installation: This eufy requires hardwired power and 2.4GHz Wi-Fi. It is IP65-rated for outdoor use. The Ring Floodlight Cam 2K is hardwired; Floodlight Cam Plus is offered in wired and plug-in configurations.
